

## BLACKBOX 002 BLACK BOX FULLHD CAMERA

The EuroSpy BLACKBOX 002 is a very versatile FullHD hidden camera within the Black Box range designed to be placed anywhere you want to control and thanks to its long battery life (up to 8 hours), it allows us to record in places where there is no sea possible to connect it to the electric current.

Its shape and size makes it easy to place and conceal it.

The EuroSpy BLACKBOX 002 is WIFI, so you can remotely view, from your smartphone, both what happens in real time and the recordings that have stored on the memory card.

Other features to note are your environmental microphone, a motion detection system (you choose whether to record fixed, time or motion detection), continuous looping (you decide if you want to stop recording when full The Card or rewriting on top of older recordings) can operate either autonomously by means of its rechargeable battery (up to 8 hours) or permanently connected to the power.

You orders through the APP and the EuroSpy BLACKBOX 002 do the surveillance work you require.
