

OBSERVER 004 ELEGANT PEN FULLHD CAMERA

The Observer 004 pen is a classic among the range of spy cameras but with superior quality superior recording features.

Its high-resolution camera allow you to make fullHD 1080P quality video recordings at 30 frames per second. The low-light image sensor allows you to record in places with little ambient light (1 lux)

The way to work with it is very simple as it's got only one button to activate / deactivate the recordings.

It also incorporates the H.264 compression format which makes high resolution recordings to occupy little memory space.

To view the recordings, simply unscrew the bottom of the pen to discover the USB connector and connect it to your computer.
